

What does that pretty yellow sign say, anyway?

After a pesticide applicator treats your lawn, they're required to post a warning sign. Have you ever read it? What if you can't read? Not much of a warning, huh? And how do you warn others when you apply pesticides yourself?

What's it all for? A few harmless weeds and bugs? Why risk harming children, pets, wildlife—and everyone else? Learn more about safe pest control by calling **240.777.7700**. Or visit: **askDEP.com**
